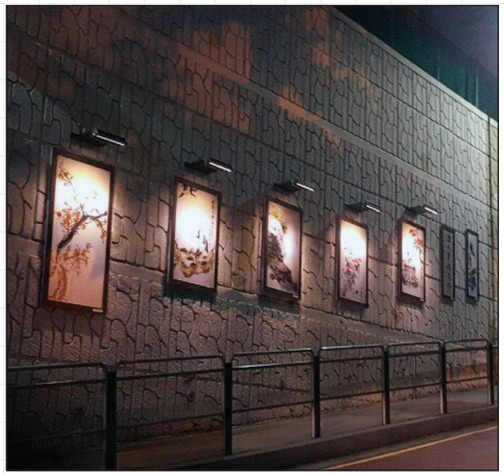
Solar Wall Wash / Advertising / Landscape Light

High quality aluminium case

Eco Solar Lights



Ideal for lighting courtyards

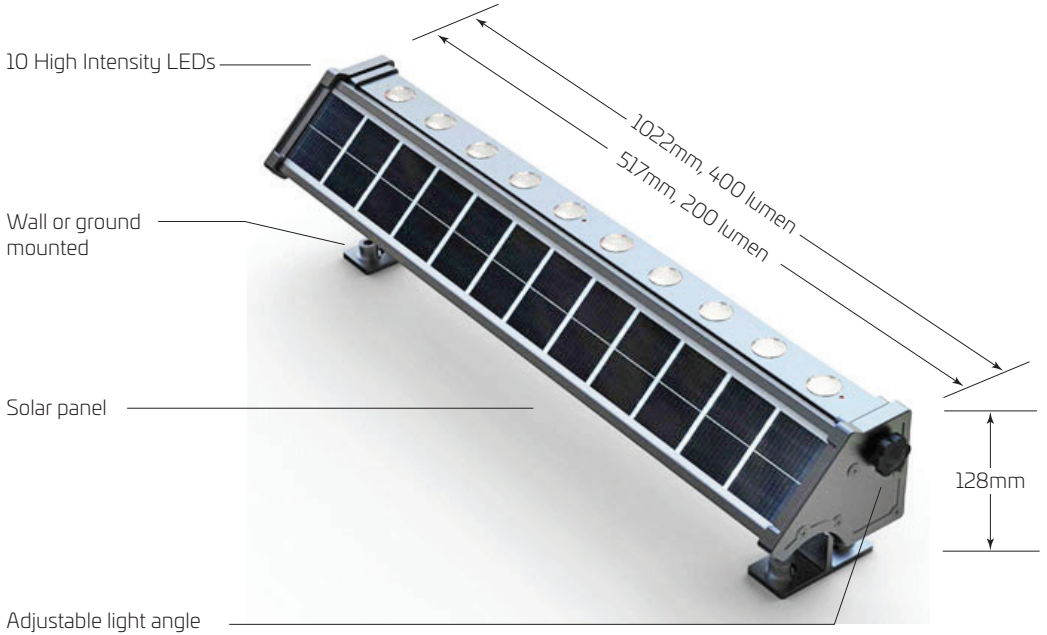
Removable, adjustable lamp module

Features

- Commercial grade solar lighting
- 6 - 7 hours initial charge time prior to use
- 4W solar panel
- High quality aluminium case
- Adjustable light angle
- Ideal for wall or decorative lighting, advertising or highlighting
- 10 or 20 super bright LEDs, warm white
- Portable or fixed mount
- Warranty: 1 year warranty for faulty workmanship or component failure not influenced by external means

Specifications SOLL009

• Material	High quality aluminium case	• Solar Panel	4W, 5.5V (500L x 90Wmm)
• Charge Time	8 - 9 hours	• Light Source	10 high intensity LEDs
• 200 Lumen model	First 5hrs - full power	• Size	517L x 108W x 128Hmm
	Next 3hrs - half power	• Battery	LiFePO4 battery
• 400 Lumen model also available		• Material	Aluminium



What is a Lumen?

In simple terms, lumens are a measure of the total amount of visible light from a lamp or light source. The higher the lumen rating, the "brighter" the lamp will appear.

How does this compare with other light sources?

Familiar examples

- A typical 4 x D cell battery maglite will emit approx. 70 lumens
- The average hardware style path light using 2-3 LEDs emits 15-18 lumens
- A 25W incandescent globe emits approximately 160 lumens
