

Compressive performance test report

Client SOLAR LIGHTING DESIGNS Testers Test date 2019/3/20/10:40:33
 Material SOLAR ROAD STUD Test Standard Test specification 0.2*1.5
 name FLUSH MOUNT SOLAR ROAD STUD
 Experimental 1.000mm/min

speed

No.	Maximum force(kN)	Test end time	Product name	Compressive strength(kN/m ²)
1	440.907	2019/3/20/10:40:33	SOLAR ROAD STUD	56138.018

Note: The actual pressure is between 32-33 t. The product starts to sound. When the pressure reaches 38t, it can't be pressed. The highest pressure is 44 t.
