

Polaris Solar Bollard

Aluminium powdercoated to a satin grey finish

Eco Solar Bollards

Suitable to fix to most surfaces

18 high intensity LEDs

Features

- Commercial grade solar lighting
- Requires 10-12 hrs charge prior to use
- 10 - 12 hours light output per night
- High quality inbuilt lithium battery
- Attractive modern design

- Ideal for illuminating paths and walkways
- Automatic light sensor turns LEDs on and off for dusk to dawn operation
- Warranty: 3 year warranty for faulty workmanship or component failure not influenced by external means

Specifications SOLB008

- Colour Powdercoat grey
- Charge Time 4-6 hours
- CCT 4000K (cool white)
- Bollard Size 800H x 215Wmm (top)
- Brightness Approx. 200 lumen output

- Solar Panel 9V 2.5 watt
- Solar Panel Size 125H x 150Wmm
- Light Source 18 high intensity LEDs
- Battery 7.4V/4400mah inbuilt lithium battery
- Material Aluminium, polycarbonate diffuser

What is a Lumen?

In simple terms, Lumens are a measure of the total amount of visible light from a lamp or light source. The higher the lumen rating, the "brighter" the lamp will appear.

How does this compare with other light sources?

- Familiar examples
- A typical 4 x D cell battery maglite will emit approx. 70 lumens
 - The average hardware style path light using 2-3 LEDs emits 15-18 lumens
 - A 25W incandescent globe emits approximately 160 lumens

Solar panel 125 x 150mm

3 x fixing points
